

Pantalla de proveedores

Hand-drawn wireframe of a web application for managing registered providers. The interface includes a top navigation bar with a user profile "Gabriela Castillo", a left sidebar with icons for menu, cart, truck, handshake, info, parking "P", and phone. The main content area is divided into two sections. The top section, titled "Buscar Proveedores Registrados", contains a search bar with the placeholder "Q buscar", a "Tipo" dropdown menu, and a table with columns "ID", "Nombre", "Tipo", "Telefono 1", and "Telefono 2". The table is currently empty. To the right of the table are icons for adding (+) and editing (pencil) a provider. The bottom section, titled "Nuevo Proveedor", contains a form with fields for "Nombre", "Tipo" (dropdown), "Telefono 1", and "Telefono 2", and an "Agregar" button with a left arrow. A bottom form section contains fields for "ID", "Nombre", "Tipo" (dropdown), "Telefono 1", and "Telefono 2", followed by a checkmark icon. Arrows indicate the flow from the sidebar to the search table and from the "Agregar" button to the bottom form.

En esta zona aparecen
listados todos los proveedores.

Cuando se selecciona uno de los proveedores listados los botones de eliminar y de editar se habilitan.

El proveedor seleccionado para editar aparece en esta zona, donde se pueden editar todos los campos excepto el identificador (id).
